**PRO-AM Panel Saw |
Controller Conversion Kits**

www.hendrickmanufacturing.com

Hendrick is now offering Windows XP/Vista/7 controller conversions for **Hendrick PRO-AM Panel Saws**. These conversions will give you the peace of mind of having a current supported Windows operating system.

These easy to install kits will come with complete instructions to do the conversion yourself which typically take less than 15 minutes. Hendrick will provide additional telephone support if needed and does offer **free installation when coupled with machine PM/service**.

The PRO-AM Conversion Kit consists of:

- Dell Tower PC (Min: 2GHz CPU, 200Gb HD, 2Gb RAM, LAN port, 4 x USBII Ports, CD/DVD RW)
- Windows XP (SP3) or Vista or 7 (when released) OS
- LCD Flat screen monitor
- USB 101 Key US keyboard
- USB optical mouse
- PRO-AM Ver. 5.x Software
- USB to serial adapters
- USB I/O Adapter
- APC uninterruptible power supply (UPS)
- All cables and adapters necessary for the conversion

Given the current economic environment many of our customers are wisely investing in their existing assets. We encourage you to be proactive about this opportunity to prevent machine downtime should your current system malfunction as it is no longer supported or replaceable.
